

SCOUTS 'CLEAN UP'

WATCHING PROGRESS of the yard work are from the left, Victor H. Matson, boys advisor, Troop 154-X; Mrs. Martha Leake, owner of the home; Mrs. William Weber, girls advisor, Troop 1374; Mr. William Weber, assistant advisor and life guard. The two scout troops

joined together for a weekend of cleaning and painting around the house and yard of Mrs. Leake. The girls had been doing the yard for a year as part of a community service project but when some heavy work needed to be done, they called for assistance.

Boys Join Girl Scouts In Maintenance Project

AN INCINERATOR was torn down by the boy scouts and when Jim Doxidor, left, and John Balow finished cleaning the bricks, a new walk will be constructed through the garden.

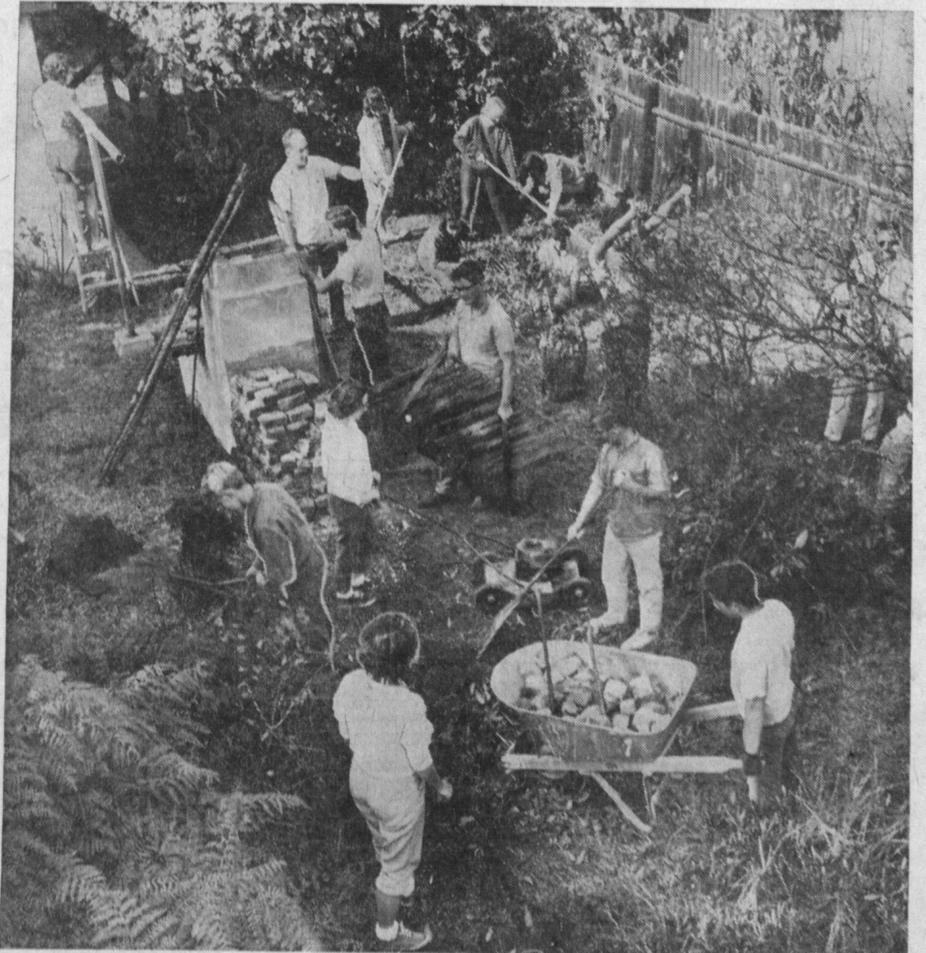

Boys, members of a Torrance Explorer Post, joined a girls senior scout troop to clean the yard of the girls adopted grandmother.

PAINTING AND RAKING was the order of the day as boy and girl scouts joined to spruce up the yard and outside of a 92 year old Redondo resident's home. To the left, Kathy Gebel paints around the windows of the garage, while below, Nancy Weber and Debbie Miller do their share by raking and stacking fallen leaves and branches.

BOY AND GIRL SCOUTS joined together in a joint maintenance project recently in Redondo Beach. The girls, members of Senior Troop 1374 have for one year been taking care of the yard of 92 year old Martha Allan Leake, 106 Irena Ave. When the yard needed a

complete renovation the girls requested and got help from Explorer Post 154-X. Mrs. Leake, still spry and active, is able to take care of the house interior but is unable to do the necessary yard work.
